Form ADV Part 2A, Appendix 1:

Wrap Fee Program Brochure

Fusion Investment Advisors is an investment adviser registered with the Securities and Exchange Commission (hereinafter "SEC"). An "investment adviser" means any person who, for compensation, engages in the business of advising others, either directly or through publications or writings, as to the value of securities or as to the advisability of investing in, purchasing, or selling securities, or who, for compensation and as part of a regular business, issues or promulgates analyses or reports concerning securities. Registration with the SEC or any state securities authority does not imply a certain level of skill or training.

This Wrap Fee program brochure provides information about the qualifications and business practices of Fusion Investment Advisors. If you have any questions about the contents of this brochure, please contact us at (866) 254-4235. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Additional information about Fusion Investment Advisors is available on the SEC's website at www.adviserinfo.sec.gov.

Material Changes - Item 2

The purpose of this page is to inform you of any material changes since the previous version of this brochure.

On November 3, 2017, we submitted an amendment filing updating Item 4 of our Form ADV Part 2A Brochure to disclose The SC Group as the new Managing Member.

On November 3, 2017, we submitted an amendment filing updating Item 4 of our Form ADV Part 2A Brochure to disclose discretionary assets under management of approximately \$ 245,258,851, and non-discretionary assets under management of approximately \$0.

On November 3, 2017, we submitted an amendment filing updating Item 10 of our Form ADV Part 2A Brochure and item 9 of our Form ADV 2A Appendix 1 Brochure to disclose that Coppell Advisory Solutions, LLC is no longer affiliated with Varsity Asset Management, LLC.

We review and update our brochure at least annually to make sure that it remains current.

Services Fees and Compensation - Item 4

Fusion Investment Advisors (hereinafter "Fusion") offers a Wrap Fee program ("Program") whereby the Firm manages Client accounts for a single fee that includes portfolio management services, custodial services and the transaction/commission costs. Under this Program, Fusion offers discretionary investment advice designed to assist Clients in obtaining professional asset management for a convenient single "Wrap Fee."

We are a portfolio manager to and sponsor of a wrap fee program. A wrap fee program combines portfolio management, advisory services and trade execution for a single fee. Fusion, as portfolio manager is responsible for the research, security selection and implementation of transaction orders in your account. The transactions in your account will be executed by Charles Schwab & Company, Inc., a division of The Charles Schwab Corporation ("Schwab"), Fidelity Brokerage Services, LLC ("Fidelity"), or TD Ameritrade Institutional, a division of TD Ameritrade, Inc. ("TD Ameritrade"). Fusion receives a portion of the wrap fee for portfolio management services. Schwab, Fidelity and/or TD Ameritrade will also receive a portion of the fee for trade execution expenses depending on where the account(s) is/are held. The terms and conditions under which a Client participates in Fusion's wrap fee program will be set forth in a written agreement between the Client and Fusion. The overall cost incurred from participation in our wrap fee program may be higher or lower than if the services were purchased separately

Wrap accounts are managed to diversify Client's investments and may include various types of securities such as equity securities, Exchange Traded Funds (ETFs), corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company products and U.S. Government securities. Other types of investments may also be recommended where the firm deems such investments appropriate based on the Client's stated goals and objectives.

Delegation to sub-advisors: Clients should be aware that we may use one or more sub-advisors to assist us in managing your account or to manage a portion of your account. All sub-advisors that we recommend to clients must be registered as investment advisers with either the Securities and Exchange Commission or with the appropriate state authority(ies). We will continuously monitor the performance of any accounts managed by the sub-adviser and will assume discretionary authority to hire or fire the sub adviser where such action is deemed to be in the best interest of the Client. The sub-advisor(s) may use one or more of their own model portfolios to manage your account. You will be required to sign an individual agreement with the sub-advisor. The sub-advisor will share in the fees charged by Fusion.

Investments and allocations are determined and based upon the Clients predefined objectives, risk tolerance, time horizon, financial horizon, financial information, and other various suitability factors. Further restrictions and guidelines imposed by Clients may affect the composition and performance of a Client's portfolio. For these reasons, performance of the portfolio may not be identical with the average Client of Fusion. On an ongoing basis, Fusion reviews the Client's financial circumstances and investment objectives and makes any adjustments to the Client's portfolio as may be necessary to achieve the desired results.

Our Wrap Fee accounts are discretionary, that is, once the portfolio allocation has been agreed upon, the ongoing supervision and management of the portfolio will be our responsibility. This authority is granted to us by you in a written agreement. This allows our Firm to decide on specific securities, the quantity of the securities and placing buy or sell orders for your account without obtaining your approval for each transaction. This type of authorization is granted using either the investment advisory agreement the Client signs with our Firm, a limited power of attorney agreement, or trading authorization forms. Clients may limit the firm's discretionary authority if they wish, by, for example, setting a limit on the type of securities that can be purchased for their account. All such restrictions must be provided in writing.

Program Fee

Fusion charges a single asset-based fee for advisory services, which includes the cost of portfolio management services, custodial services and the execution of securities transactions. The annual fee for the Fusion Wrap Fee Program is billed quarterly in arrears based on the market value of the assets on the last day of the quarter. Fees will be assessed pro rata in the event the portfolio management agreement is executed at any time other than the first day of a calendar quarter.

The Client pays one fee to Fusion. This fee is deducted from the Client's account held at TD Ameritrade, Fidelity or Schwab. The Client authorizes Fusion to debit the fee from the Client's account. If insufficient cash is available to pay such fees, securities in an amount equal to the balance of unpaid fees will be liquidated to pay for the unpaid balance. Our fee for portfolio management services is set forth in the following fee schedule:

Portfolio Size		Annualized Fee*	
		<i>WRAP Accounts</i>	<i>Non-WRAP Accounts</i>
\$0	\$500,000	2.50%	2.00%
\$500,001	\$1,000,000	2.25%	1.75%
\$1,000,001	\$2,500,000	2.00%	1.50%
Accounts over \$2,500,000		Negotiable	Negotiable

Generally, Fusion allows related accounts to be combined for fee paying purposes. We combine the account valuations to assist you in meeting fee breakpoints and therefore lowering the overall fee level. Fusion extends this option to accounts residing in the same household and certain members of the same family.

In determining whether to establish a Program account, a Client should be aware that the overall cost to the Client of the Program may be higher or lower than the Client might incur by purchasing separately the types of securities available in the Program. In order to compare the cost of the Program with unbundled services, the Client should consider the turnover rate in Fusion's investment strategies, trading activity in the account and standard advisory fees and brokerage commissions that would be charged at Schwab, Fidelity, or TD Ameritrade, or at other broker-dealers and investment advisers.

Additional Fees and Expenses

The fees are charged as described above and are not based on a share of capital gains of the funds of an advisory Client.

All fees paid to Fusion for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds to their shareholders. These fees and expenses are described in each fund's prospectus. These fees generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a Client may pay an initial or deferred sales charge. A Client could invest in a mutual fund directly, without the services of Fusion. In that case, the Client would not receive the services provided by Fusion which are designed, among other things, to assist the Client in determining which mutual fund or funds are most appropriate to each Client's financial condition and objectives. Accordingly, the Client should review both the fees charged by the funds and the fees charged by Fusion to fully understand the total amount of fees to be paid by the Client and to thereby evaluate the advisory services being provided.

There may be other costs assessed, which are not included in the Program Fee, such as national securities exchange fees; charges for transactions with respect to assets not executed through the custodian, costs associated with exchanging currencies; wire transfer fees; or other fees required by law.

Termination

The agreement between Fusion and the Client will continue in effect until either party terminates in accordance with the terms of the agreement. Fusion's annual fee will be pro-rated through the date of termination. Refunds are generally not applicable as fees are payable in arrears. However, in the event there are any prepaid unearned fees, Fusion will return a pro rata share to the Client. Upon termination of accounts, Schwab, Fidelity, or TD Ameritrade delivers securities and funds held in the account as instructed by Client, unless Client requests that the account be liquidated. After the Agreement has been terminated, transactions are processed at the prevailing brokerage rates. Client becomes responsible for monitoring their own assets and Fusion has no further obligation to act or provide advice with respect to those assets.

TD Ameritrade Institutional Advisor Program

Fusion participates in the institutional advisor program (the "Program") offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Fusion receives some benefits from TD Ameritrade through its participation in the Program. Please refer to Page 11: "Client Referrals and Other Compensation" section of this document for further information about the economic benefits Fusion receives from TD Ameritrade for participation in the TD Ameritrade Institutional program.

Schwab Institutional Program

Fusion participates in the Schwab Institutional Program. Schwab Institutional provides us with access to its institutional trading and operational services, which are typically not available to Schwab retail investors. The services generally are available at no charge so long as we maintain a minimum of \$10 million of account assets with them. Schwab Institutional services include research, brokerage, custody, access to mutual funds and other investments that are otherwise available only to institutional investors. Schwab Institutional also makes available other products and services that benefit the administration of our accounts. These include software, client account access technology, trade confirmations and account statements, trade execution and aggregated trade order allocation technology, back-office support, recordkeeping, and client reporting. Schwab Institutional also provides us with business enterprise services. These services include consulting, publications and practice management presentations, information technology, business succession, regulatory compliance, and marketing information and best practices. Schwab may make available, arrange and/or pay independent third parties for these types of services. Schwab Institutional may discount, waive or pay all or part of the third party fees for services provided. There are no contingencies or business volume requirements (assets in custody or trading) associated with the availability of the foregoing products and services.

Fidelity Institutional Program

Fusion participates in the Fidelity Institutional Wealth Services[®] ("Fidelity") Program. Fidelity Institutional Wealth Services[®] is a division of Fidelity Brokerage Services LLC, member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). Fidelity offers independent investment advisers services, which include custody of Client securities, trade execution, clearance and settlement of transactions, and daily research and investment information.

We are not affiliated with Schwab, Fidelity, or TD Ameritrade. Our Investment Adviser Representatives are not registered representatives of Schwab, Fidelity, or TD Ameritrade and do not receive commissions or other compensation from recommending these services.

Account Requirements and Types of Clients - Item 5

We offer investment advisory services to individuals, pension and profit sharing plan participants, trusts, estates, charitable organizations, corporations, and other business entities.

Fusion requires a minimum of \$20,000 to open and maintain an advisory account. At our sole discretion we may waive this requirement. This requirement can be met by combining two or more accounts owned by you or related family members.

Portfolio Manager Selection and Evaluation - Item 6

Advisory Business

Currently, we offer the following investment advisory services, personalized to each individual Client:

Portfolio Management Services

Non Wrap Program

Portfolio management refers to the management of money, including investments. Assets are usually held in an account. A group of accounts is called a portfolio. Determining the types and quantities of securities to hold in a portfolio is referred to as portfolio management.

Our firm offers discretionary and non-discretionary portfolio management services to our clients and prospective clients. Discretionary portfolio management means we will make investment decisions and place buy or sell orders in your account without contacting you. These decisions would be made based upon your stated investment objectives. Non-discretionary portfolio management means we will contact you before a trading decision is taken.

Our investment advice is tailored to meet our clients' needs and investment objectives. If you decide to hire our firm to manage your portfolio, we will meet with you to gather your financial information, determine your goals, and decide how much risk you should take in your investments. The information we gather will help us create a portfolio and implement an asset allocation strategy that will be specific to your goals, whether we are actively investing for you or simply providing you with advice.

Our firm mainly uses equity securities, exchange traded funds, no-load or load waived mutual funds, corporate securities, municipal securities, U.S. government securities in its portfolio management programs. We may also recommend that clients invest in various investment related limited partnerships created by third parties.

However we construct your investment portfolio, we will monitor your portfolio's performance on an ongoing basis, and rebalance the portfolio whenever necessary, as changes occur in market conditions, your financial circumstances, or both.

As outlined above, discretionary portfolio management services means that once the portfolio has been agreed upon, the ongoing supervision and management of the portfolio will be our responsibility. This allows our firm to decide on specific securities, the quantity of the securities and placing buy or sell orders for your account without obtaining your approval for each transaction. You may grant us discretionary authority using either the investment advisory agreement you sign with our firm, a limited power of attorney agreement, or trading authorization forms. You may limit this authority by setting a limit on the type of securities that can be purchased for your account. Simply provide us with your restrictions or guidelines in writing.

The non-discretionary portfolio management service means, as outlined above, that we must obtain your approval prior to making any transactions in your account. In some cases, we may provide you with a list of recommended transactions that you can review, approve and execute in your account.

Delegation to sub-advisors: For those of our clients who hire us for discretionary portfolio management services and who have signed an agreement with us to this effect, you should be aware that we may use one or more sub-advisors to assist us in managing your account or to manage a portion of your account. All sub-advisors that we recommend to clients must be registered as investment advisers with either the Securities and Exchange Commission or with the appropriate state authority(ies). We will continuously monitor the performance of any

accounts managed by the sub-advisor and will assume discretionary authority to hire or fire the sub advisor where such action is deemed to be in the best interest of the Client. The sub-advisor(s) may use one or more of their own model portfolios to manage your account. You will be required to sign an individual agreement with the sub-advisor. The sub-advisor will share in the fees charged by Fusion.

We recommend that you compare our reports with the statement(s) you receive from the qualified custodian. If you see something that is incorrect, please call our main office number, located on the cover page of this brochure.

Financial Planning Services

We offer broad based financial planning including tax planning, charitable gifting strategies, risk and insurance analysis and estate and retirement planning. Fusion strives to achieve a client's long-term financial goals by implementing a financial planning process that may include any or all of the following steps:

- Assessment of a client's present financial situation by collecting information regarding net worth and cash flow statements, tax returns, insurance policies, investment portfolios, pension plans, employee benefit statements etc.
- Identification of a client's financial and personal goals and objectives. Goals or objectives may include financing a child's college education or retirement planning. The identified goals or objectives are specific, realistic and measurable. All goals include time horizons.
- Resolution of finance related problems. Obstacles to achieving financial independence are identified so that resolution may occur. Examples of problem areas can include too little or too much insurance coverage, inadequate cash flow or a high tax burden.
- Plan Design. A written financial plan is prepared that includes recommendations and solutions to any financial related problems.
- Implementation of the financial plan. The financial plan is finalized and agreed upon. The recommendations and solutions are executed to reach the desired goals and objectives.
- Evaluation of the financial plan is conducted periodically. The financial planning service provides periodic review and revision of the plan to ensure that the financial goals are achieved.

Financial plans are based on your financial situation and the financial information you provide to our firm. If your financial situation, goals, objectives, or needs change, you must notify us promptly.

You may choose to accept or reject our recommendations. If you decide to proceed with our recommendations, you may do so either through our investment advisory services or by using the advisory/brokerage firm of your choice.

Insurance Services

Separate and apart from the advisory services we offer, Fusion functions as the supervisory financial institution for transactions in certain fixed insurance products sold by insurance agents associated with one of our owners, Partners Advantage Insurance Services, LLC.

Partners Advantage Insurance Services LLC is an independent marketing organization providing distribution and other marketing functions for insurance companies. Agents affiliated or associated with Partners Advantage Insurance Services LLC sell insurance products offered by the insurance companies with which Partners Advantage Insurance Services, LLC has relationships. Those insurance agents may also be registered as investment adviser representatives of Fusion.

Regulations established by the U.S. Department of Labor, which became effective in 2017, impose a fiduciary duty on insurance agents who sell certain fixed insurance products, primarily fixed annuities and equity indexed annuities, to clients in tax qualified retirement plans (for example, IRA accounts, 401k accounts, pension plans, etc.). This fiduciary duty imposes on the selling insurance agents the obligation to only recommend insurance products that are in the best interests of their clients. To confirm that this obligation is fulfilled, insurance agents are required to be subject to the oversight of a supervising financial institution. We have agreed to perform this function for agents associated with Partners Advantage Insurance Services LLC.

The duty to recommend products that are in the best interests of a client does not mean that an insurance agent must recommend the “best” product available in the market. Rather, it means that the agent must recommend the product available for sale by that agent that best meets the needs of the client based on the information provided by the client. As a supervising financial institution, we will review each proposed transaction to evaluate whether we believe it to be in the best interests of the client based on the information available about that client.

Insurance companies pay insurance agents a commission for each insurance product they sell to a client. Insurance companies may also periodically pay additional compensation to those agents as long as the insurance product is still owned by the client. Any such compensation paid to an insurance agent who is also associated with Fusion will be separate and distinct from any compensation those individuals receive in conjunction with the portfolio management and financial planning services they provide to the client through Fusion. Clients who purchase an insurance product from a Partners Advantage Insurance Services LLC agent will not be charged an asset-based fee on that insurance product.

In return for acting as the supervising financial institution, Fusion will receive a payment of \$_____ from Partners Advantage Insurance Services LLC for each insurance transaction effected. This payment is separate and distinct from the commissions paid by the insurance company to individual insurance agents. Clients will not be charged any portion of this payment.

Clients to whom Fusion offers advisory services are under no obligation to utilize the services of any insurance agents associated with Fusion or with Partners Advantage Insurance Services LLC for insurance services and may use the insurance brokerage firm and agent of their choosing.

Performance Based Fees - Side by Side Management

We and our Associated Persons do not accept performance based fees. Performance based fees are based on a share of capital gains on or capital appreciation of the client’s assets.

Methods of Analysis

The following are different methods of analysis that we may use when providing you with investment advice:

- Fundamental Analysis – fundamental analysis is a technique that attempts to determine a security’s value by focusing on underlying factors that affect a company's actual business and its future prospects. The term refers to the analysis of the economic well-being of a financial entity as opposed to only its price movements.
- Technical Analysis – technical analysis is a technique that relies on the assumption that current market data (such as charts of price, volume, and open interest) can help predict future market trends, at least in the short term. It assumes that market psychology influences trading and can predict when stocks will rise or fall.

Investment Strategies

- Long Term Purchases – securities held for over a year.
- Short Term Purchases – securities held for less than a year.

- Trading – securities are sold within 30 days.
- Covered Options – covered option is a strategy in which an investor writes an option contract while at the same time owning an equivalent number of shares of the underlying stock.
- Margin Transactions – margin strategies allow an investor to purchase securities on credit and to borrow on securities already in their custodial account. Interest is charged on any borrowed funds for the period of time that the loan is outstanding.
- Short Sales – short selling is the selling of a stock that the seller doesn't own. More specifically, a short sale is the sale of a security that isn't owned by the seller, but that is promised to be delivered.

Risk of Loss

The investment advice provided along with the strategies we suggest will vary depending on each client's specific financial situation and goals. This brief statement does not disclose all of the risks and other significant aspects of investing in financial markets. In light of the risks, you should fully understand the nature of the contractual relationship(s) into which you are entering and the extent of your exposure to risk. Investing in securities involves risk of loss that clients should be prepared to bear. Certain investing strategies may not be suitable for many members of the public. You should carefully consider whether the strategies employed will be appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances.

General Investment Risk: All investments come with the risk of losing money. Investing involves substantial risks, including complete possible loss of principal plus other losses and may not be suitable for many members of the public. Investments, unlike savings and checking accounts at a bank, are not insured by the government to protect against market losses. Different market instruments carry different types and degrees of risk and you should familiarize yourself with the risks involved in the particular market instruments you intend to invest in.

Loss of Value: There can be no assurance that a specific investment will achieve its investment objectives and past performance should not be seen as a guide to future returns. The value of investments and the income derived may fall as well as rise and investors may not recoup the original amount invested. Investments may also be affected by any changes in exchange control regulation, tax laws, withholding taxes, international, political and economic developments, and government, economic or monetary policies.

Interest Rate Risk: Fixed income securities and funds that invest in bonds and other fixed income securities may fall in value if interest rates change. Generally, the prices of debt securities rise when interest rates fall, and their prices fall when interest rates rise. Longer term debt securities are usually more sensitive to interest rate changes.

Credit Risk: Investments in bonds and other fixed income securities are subject to the risk that the issuer(s) may not make required interest payments. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity, making it more difficult to sell. Funds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

Foreign Exchange Risk: Foreign investments may be affected favorably or unfavorably by exchange control regulations or changes in the exchange rates. Changes in currency exchange rates may influence the share value, the dividends or interest earned and the gains and losses realized. Exchange rates between currencies are determined by supply and demand in the currency exchange markets, the international balance of payments, governmental intervention, speculation and other economic and political conditions. If the currency in which a security is denominated appreciates against the US Dollar, the value of the security will increase. Conversely, a decline in the exchange rate of the currency would adversely affect the value of the security.

Risks Associated with Investing in Options: Transactions in options carry a high degree of risk. A relatively small market movement will have a proportionately larger impact, which may work for or against the investor. The placing of certain orders, which are intended to limit losses to certain amounts, may not be effective because market conditions may make it impossible to execute such orders. Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged either to settle the option in cash or to acquire or deliver the underlying investment. If the option is "covered" by the seller holding a corresponding position in the underlying investment or a future on another option, the risk may be reduced.

Voting of Client Securities - Proxy Voting

Fusion does not vote proxies. It is the client's responsibility to vote proxies. Clients will receive proxy materials directly from the custodian. Questions about proxies may be made via the contact information on the cover page.

Client Information Provided to Portfolio Managers - Item 7

Since Fusion and its Associated Persons are the sole portfolio managers to the Program, we do not provide information about our Clients to other portfolio managers.

Confidentiality

Fusion views protecting its customers' private information as a top priority and, pursuant to the requirements of the Gramm-Leach-Bliley Act, the Firm has instituted policies and procedures to ensure that customer information is kept private and secure.

Fusion does not disclose any nonpublic personal information about its customers or former customers to any nonaffiliated third parties, except as permitted by law. In the course of servicing a Client account, Fusion may share some information with its service providers, such as transfer agents, custodians, broker-dealers, accountants, and lawyers.

Fusion restricts internal access to nonpublic personal information about its Clients to those employees who need to know that information in order to provide products or services to the Client. Fusion maintains physical and procedural safeguards that comply with state and federal standards to guard a Client's nonpublic personal information and ensure its integrity and confidentiality. As emphasized above, it has always been and will always be the Firm's policy never to sell information about current or former customers or their accounts to anyone. It is also the Firm's policy not to share information unless required to process a transaction, at the request of the Client, or as required by law.

A copy of the Firm's privacy policy notice will be provided to each Client prior to, or contemporaneously with, the execution of the advisory agreement. Thereafter, the Firm will deliver a copy of the current privacy policy notice to its Clients on an annual basis. If you have any questions on this policy, please contact us.

Client Contact with Portfolio Managers - Item 8

Fusion and its Associated Persons may act as portfolio managers to the Program. Clients are free to contact us at any time. Our primary contact regarding questions about the Program is Ryan Borer, President and Chief Strategy Officer. Clients may contact him at (866) 254-4235.

Additionally, Fusion may use one or more sub-advisors to assist us in managing your account or to manage a portion of your account. Fusion does not place any restrictions on the client's ability to contact and consult with any of the sub-advisors.

Additional Information - Item 9

Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of us or the integrity of our management. There is no history of material legal or disciplinary events by our Firm or our management persons.

Other Financial Industry Activities and Affiliations

Certain Investment Advisory Representatives (“IARs”) and Officers of Fusion are also licensed as insurance agents and can offer various insurance products from a variety of product sponsors and earn commissions for these activities. The firm expects that clients to whom it offers advisory services may also be insurance clients of Fusion’s IARs and Officers. Clients are instructed that the fees paid to the firm for advisory services are separate and distinct from the commissions earned by IARs for placing the client in insurance products. Clients to whom the firm offers advisory services are informed that they are under no obligation to purchase insurance services from associated persons of the firm.

These arrangements represent a conflict of interest due to the receipt of both advisory and commission compensation. Fusion has policies and procedures that require all IARs to uphold their fiduciary responsibilities towards clients. Where Fusion finds an IAR has not acted in the best interest of the client, we may cancel the transaction. Alternatively, we may deduct the commission costs from the advisory fee paid by the client. In any event, all client transaction costs will be disclosed to the client.

As noted above, Fusion is affiliated with Partners Advantage Insurance Services LLC . Agents affiliated or associated with Partners Advantage Insurance Services LLC may also be registered as investment adviser representatives of Fusion. Clients to whom the firm offers advisory services are informed that they are under no obligation to utilize the services of these agents for insurance services and may use the insurance brokerage firm and agent of their choosing.

Fusion is the parent company of PCM Advisory LLC dba Precision Capital Management (CRD#174239), a SEC registered investment adviser. Ryan Borer is the Managing Member. Jon Cravens acts as the Chief Compliance Officer of Precision Capital Management. Fusion does not expect its clients to become clients of Precision Capital Management as both firms offer identical investment advisory services. Precision Capital Management’s advisory services and related fees are separate and distinct from any services or compensation paid to Fusion for its services.

Fusion has a partial ownership interest and control over Ministry Benefit Investments, LLC (CRD#281619) and Afferent Investments, LLC (CRD#282422). Both firms are SEC registered investment advisers. Certain owners and Management Persons of Fusion are also employed by Ministry Benefit Investments, LLC and Afferent Investments, LLC in various capacities.

Description of Our Code of Ethics

Fusion has adopted a Code of Ethics (the “Code”) to address investment advisory conduct. The Code focuses primarily on fiduciary duty, personal securities transactions, insider trading, gifts, and conflicts of interest. The Code includes Fusion’s policies and procedures developed to protect Client’s interests in relation to the following topics:

- The duty at all times to place the interests of Clients first;
- The requirement that all personal securities transactions be conducted in such a manner as to be consistent with the code of ethics.

- The responsibility to avoid any actual or potential conflict of interest or misuse of an employee’s position of trust and responsibility;
- The fiduciary principle that information concerning the identity of security holdings and financial circumstances of Clients is confidential; and
- The principle that independence in the investment decision-making process is paramount.

Clients who would like to receive a copy of Fusion’s Code of Ethics, may contact Jon Cravens, CCO at (866) 254-4235.

Personal Trading Practices

At times Fusion and/or its Advisory Representatives may take positions in the same securities as Clients, which may pose a conflict of interest with Clients. Fusion and its Advisory Representatives will generally be “last in” and “last out” for the trading day when trading occurs in close proximity to Client trades.

We will not violate our fiduciary responsibilities to our Clients. Front running (trading shortly ahead of Clients) is prohibited. Should a conflict occur because of materiality (i.e. a thinly traded stock), disclosure will be made to the Client(s) at the time of trading. Incidental trading not deemed to be a conflict (i.e. a purchase or sale which is minimal in relation to the total outstanding value, and as such would have negligible effect on the market price), would not be disclosed at the time of trading.

Review of Accounts

Fusion monitors the individual investments within Fusion’s portfolio management account each day the market is open. Portfolio performance is reviewed, at a minimum, on a quarterly basis. Fusion offers portfolio management clients an in-person portfolio review meeting on a semi-annual basis. A financial plan is a snapshot in time and no ongoing reviews are conducted. We recommend clients engage us on an annual basis to update the financial plan.

Ryan Borer, President and Chief Strategy Officer, Jon Cravens, Chief Compliance Officer, or the client's IAR, will perform all client portfolio reviews.

Clients will receive statements directly from their account custodian(s) on at least a quarterly basis. Additionally, Fusion may provide clients with quarterly performance reports.

Client Referrals and Other Compensation

As disclosed under Item 4. above, Fusion participates in Schwab’s, Fidelity’s and TD Ameritrade’s institutional customer program, and Fusion may recommend Schwab, Fidelity and/or TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Fusion’s participation in the program and the investment advice it gives to its Clients, although Fusion receives economic benefits through its participation in the program that are typically not available to Schwab, Fidelity or TD Ameritrade retail investors.

These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Fusion participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Fusion by third party vendors. Schwab and/or TD Ameritrade may also have paid for business consulting and professional services received by Fusion’s related persons.

Some of the products and services made available by Schwab, Fidelity, or TD Ameritrade through the program may benefit Fusion but may not benefit its Client accounts. These products or services may assist Fusion in managing and administering Client accounts, including accounts not maintained at Schwab, Fidelity, or TD Ameritrade. Other services made available by Schwab, Fidelity, or TD Ameritrade are intended to help Fusion manage and further develop its business enterprise. The benefits received by Fusion or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to Schwab, Fidelity, or TD Ameritrade. As part of its fiduciary duties to clients, Fusion endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Fusion or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Fusion's choice of Schwab, Fidelity, or TD Ameritrade for custody and brokerage services.

We and our related persons do not compensate, either directly or indirectly, any person or entity who is not our supervised person for Client referrals.

Financial Information

We are required in this Item to provide you with certain financial information or disclosures about Fusion's, financial condition. Fusion does not require the prepayment of over \$1,200, six or more months in advance. Additionally, Fusion has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to Clients, and has not been the subject of a bankruptcy proceeding.

Requirements for State-Registered Advisors - Item 10

This section is intentionally left blank- Our Firm is SEC registered

Miscellaneous

Trade Aggregation

While individual client advice is provided to each account, client trades may be executed as a block trade. Fusion encourages its existing and new clients to use Schwab, Fidelity, or TD Ameritrade. Only accounts in the custody of Schwab, Fidelity, or TD Ameritrade would have the opportunity to participate in aggregated securities transactions. All trades using Schwab, Fidelity, or TD Ameritrade will be aggregated and done in the name Fusion. The executing broker will be informed that the trades are for the account of Fusion's clients and not for Fusion itself. No advisory account within the block trade will be favored over any other advisory account, and thus, each account will participate in an aggregated order at the average share price and receive the same commission rate. The aggregation should, on average, reduce slightly the costs of execution, and Fusion will not aggregate a client's order if in a particular instance Fusion believes that aggregation would cause the client's cost of execution to be increased. Schwab, Fidelity, or TD Ameritrade will be notified of the amount of each trade for each account. Fusion and/or its Associated Persons may participate in block trades with clients, and may also participate on a pro rata basis for partial fills, but only after the determination has been made that clients will receive fair and equitable treatment.

Class Action Lawsuits

From time to time, securities held in the accounts of Clients will be the subject of class action lawsuits. Fusion has no obligation to determine if securities held by the Client are subject to a pending or resolved class action lawsuit. It also has no duty to evaluate a Client's eligibility or to submit a claim to participate in the proceeds of a securities class action settlement or verdict. Furthermore, the Firm has no obligation or responsibility to initiate litigation to recover damages on behalf of Clients who may have been injured as a result of actions, misconduct, or negligence by corporate management of issuers whose securities are held by Clients.

Where the Firm receives written or electronic notice of a class action lawsuit, settlement, or verdict affecting securities owned by a Client, it will forward all notices, proof of claim forms, and other materials, to the Client. Electronic mail is acceptable where appropriate, and the Client has authorized contact in this manner.

Trade Error Correction Procedures

On infrequent occasions, an error may be made in a Client account. For example, a security may be erroneously purchased for the account instead of sold. In these situations, the Firm generally seeks to rectify the error by placing the Client account in a similar position as it would have been had there been no error. Depending on the circumstances, various corrective steps may be taken, including among others canceling the trade or adjusting an allocation. Any gains or losses resulting from error correction will be placed in Fusion's error correction account.
